Office Action Summary

Art Unit: 1761

DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-57 and 59, drawn to a dough-cutting apparatus and method of use, classified in class , subclass .
- II. Claim 58, drawn to a baked dough product, classified in class 426, subclass 549.

The inventions are distinct, each from the other because of the following reasons:

While the product of Group I may be used upon a raw dough, it may also be used on other compositions. Further, the product of Group II is not a raw dough, but a baked product, which is chemically, physically and functionally unrelated to the product, and therefore the method of use of that product, of Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1761

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
